### **Koppers Announces Closing of Cindu Acquisition *Includes Long-Term Tar Supply Agreement***

PITTSBURGH, March 1, 2010 – Koppers Inc., a wholly-owned subsidiary of Koppers Holdings Inc. (NYSE:KOP), announced that it has completed a transaction to acquire 100% of the outstanding shares of privately-owned Cindu Chemicals B.V. (“Cindu”) from joint owners Cindu B.V. and Corus Staal B.V. for an undisclosed purchase price. The transaction included the completion of due diligence, certain regulatory approvals and approval from Cindu’s Works Council. Koppers has funded the acquisition primarily with cash on hand in Europe.

In addition to acquiring ownership of Cindu, Koppers has entered into a long-term tar supply contract with Corus Staal, which supplies the majority of raw material requirements for the Uithoorn plant located in the Netherlands.

Cindu’s operations and end markets are similar to those of other plants within the Carbon Materials and Chemicals business unit. Primary products include carbon pitch, naphthalene, carbon black feedstock and certain specialty products and coatings. The most recently reported sales for Cindu were for the year ended December 31, 2008 and totaled approximately €50 million. The business includes a 140,000 metric ton tar distillation plant located in Uithoorn, Netherlands and storage tanks located at the Port of Amsterdam.

Walt Turner, President and CEO of Koppers, said “The acquisition of Cindu gives Koppers a stronger base of operations in Europe, increasing our presence in the European market as well as enhancing our ability to serve export markets. I am excited to welcome the Cindu employees into the Koppers group and look forward to their involvement in all our ongoing successes. We view this transaction as one of many steps we are taking to provide our customers with the highest quality products and services.”
